Advance HE - <https://www.advance-he.ac.uk/about-us>

Advance HE has over 16 years' experience championing teaching excellence in higher education. Through our globally recognised Professional Standards Framework we benchmark success within higher education teaching and learning support. Although we charge a fee for our services, we are a non-profit and charitable organisation.

Our experts work with governments, sector agencies and individual institutions in support of sustainable improvement, sharing global practice and building international networks. Our purpose is to support governments and universities to put HE strategy into practice for the benefit of students, staff and society. We bring together HE-focused expertise in leadership, governance, teaching and learning, and equality, diversity and inclusion, to help institutions to deliver world-leading teaching, research and scholarship, and achieve their civic mission and student outcomes. This is done through the provision of training and consultancy support as well as recognition schemes.

ASIC - www.asic.org.uk

ASIC Accreditation is an internationally renowned quality standard for schools, colleges, universities, and online learning providers, and is recognized by the UK Home Office. The well-defined and objective benchmarking of ASIC's accreditation brings independent information to both students and education professionals. Accreditation through ASIC helps students and parents make a more informed choice and will also help a school, college, university, training provider or distance education provider demonstrate to the international student body that they are a high-quality institution. ASIC accreditation also enables students to gain a realistic and honest picture of what an institution is really like in terms of quality, resources, student support and ethics.
